REMARKS _____

25X1X

The following aircraft were observed at Rangsdorf airfield between 28 July and 3 August 1953:

28 July. [REDACTED] along the field and observed 5
25X1C biplanes, 3 single-engine aircraft, and 2 twin-engine aircraft [REDACTED] 25X1
[REDACTED] on the landing field. Three of the biplanes took off
at intervals of about 500 meters.

30 July. [REDACTED] 4 biplanes, 3 single-engine and 5 twin-engine
25X1C aircraft [REDACTED] were observed at 25X1C
the field. Additional aircraft, probably twin-engine, were observed in
an open hangar.

3 August. Only 3 single-engine and 2 twin-engine aircraft were counted
at the field. Maintenance work was being done on the latter aircraft.

25X1A [REDACTED] Comment. No change has occurred in the occupation of Rangsdorf
airfield. Repair work is still being done on airframes and engines
of some conventional aircraft types in the workshops at the field.
